

Strategies for Planning, Developing and Writing Large Team Grants

An interactive workshop presented by Mike Cronan, *Academic Research Funding Strategies, LLC*

Thursday, May 1, 2014
8:30 am – 12:30 pm
1022 Life Sciences Building

ABOUT THE WORKSHOP

This interactive workshop offers a step-by-step “how to” guide to faculty to help them better meet the unique challenges of successfully writing large team grants. Large team grants differ from smaller grants in many ways that make them more challenging to plan, develop and write. This workshop will cover some planning and writing strategies that will increase your chances of developing a successful large team grant.

4-HOUR WORKSHOP SCHEDULE OF TOPICS

- Introduction to Team Grants
- Interactive Discussion: *Characteristics of a Successful Research Vision*
- Strategic Planning
- Interactive Discussion: *Characteristics of Research Synergy*
- Proposal Planning and Production
- Writing Key Narrative Sections
- Characteristics of Successful Narratives
- Red Teaming and Writing for Reviewers

This free event for faculty is sponsored by the UC Davis Office of Research

30-60 MINUTE CONSULTATIONS

Interested teams may schedule individual consultations with the presenter on workshop topics. These will be scheduled on a first-come-first-served basis.

ABOUT THE PRESENTER

Mike Cronan is a research development and grant writing consultant with Academic Research Funding Strategies, LLC. He is the principal co-publisher of the nationally distributed newsletter *Research Development and Grant Writing News*, co-author of the book *New Faculty Guide to Competing for Research Funding*, and author of the book *Strategies for Planning, Developing and Writing Large Team Grants*. He has 23 years of experience developing and writing successful proposals at Texas A&M University (1987-2010). Mike Cronan has undergraduate degrees in civil engineering (University of Michigan), political science (Michigan State University), and an MFA in English (University of California-Irvine).

ADDITIONAL SUPPORT

The UC Davis Interdisciplinary Research Support team will provide additional consultation for developing your proposal at UC Davis. The IRS team coordinates the preparation of major grant proposals for large-scale, interdisciplinary research programs. The team works on grants and contracts that involve multiple schools, colleges, divisions, or institutions to support new research units, programs, or centers at UC Davis that are funded by major extramural research sponsors. The IRS team is dedicated to serving faculty investigators through the entire proposal process: aiding the development of research, education, and outreach aims and programs; creating budgets and justifications; providing high-level and detailed editing; facilitating internal and external submissions processes; and advising on internal and sponsor policy. In addition, the IRS team connects Principal Investigators to other researchers and resources, both on and off campus, that add value to the research effort as a whole and increase the breadth and impact of research at UC Davis.
